The orders shunned the age-long tradition of head by the senior-most till retirement, a system that inherently could degenerate vigor, competitiveness and innovativeness among the faculties creating in turn a mindset in the younger teachers that goes against pro-development. It may be recalled that the reformation, a major IQAC initiative for academic development towards achieving the institutional objectives, was first attempted in early 2017. The tradition is so firm that the orders of the Principal could not withstand even a week; the newly appointed faculties declined en mass out of respect for their long standing Heads.
